**Beverages supplied by Canyon Explorations/Expeditions:** endless filtered water, lemonade mix, Vitalyte (a powdered electrolyte replacement drink), coffee, instant decaf coffee, regular and herbal teas, and hot chocolate. We also have juice some mornings, and a limited number of canned beverages during the day.

**Please consider ordering sparkling water instead of soda** - it's quite refreshing as well as healthfully hydrating! Remember that you'll be working hard to stay hydrated while on your trip, and sodas and alcohol are dehydrating – especially for children.

**HARD LIQUOR NOTE:** NO GLASS! If you would like to bring hard liquor, please decant it into a plastic container or purchase the ones bottled in plastic.

**WINE NOTE:** NO GLASS! Please decant glass-bottled wine into a plastic container. We have found that Platypus brand soft plastic bottles work well (available online and at select sporting goods stores).

Please note that due to limited boat space, we must limit the total amount of beverages (sodas, beer and wine combined) allowed per person.

**Beverage limits per person:**

**\*Or any other combination of equal volume\***

**You must be at least 21 years of age to purchase alcoholic beverages.**

**While not a common occurrence, cans and wine bladders can be damaged due to the nature of transporting them downstream.**
